Dear Sir or Madam:

Please accept this recommendation of Abby Harnack for employment in your school district. I have had the pleasure of knowing Abby for the past two years. Abby was a student in three of my courses at the university and I have found her to be an excellent candidate for a teaching position.

Abby has consistently displayed high moral values, exemplary integrity, content knowledge, and a love of working with children clearly supported by an extensive knowledge of both instructional and assessment strategies. She easily initiates positive rapport with her peers, supervisors, and students. She also handles her teaching responsibilities with great efficiency and is meticulous in her efforts to plan and deliver quality instruction. Abby possesses incredible leadership abilities as demonstrated by being selected on numerous occasions by faculty and administration to lead and plan activities/services on campus. She leads by example and definitely has a compassionate spirit that will serve her well as she works with students on a daily basis.

Abby Harnack has a drive and determination that I have rarely observed in my years of teaching. Her maturity level, self-discipline, and organizational skills are unparalleled in my opinion. She has a great growth mindset, a reflective nature, and desire to be a life-long learner. She has been a major asset to the university which only confirms my belief that she will be a tremendous asset throughout her educational career.

In my opinion, Abby possesses all the traits and dispositions necessary to become a master teacher in her field. I sense that teaching is a "calling" for her and I would be proud for her to teach my own children. I can honestly state that Abby is probably one of, if not the best and brightest, young person I have worked with in my 33 years in education. She has been a true blessing to me these past two years and I look forward to seeing her grow in the future.

Sincerely,

Susan M. Blevins, Assistant Professor
